### THE BIG CIRCUS IS COMING

**Barnum and Bailey Booked for Early Appearance.**

The Barnum and Bailey greatest show on earth will visit Moline Thursday, July 21, giving two performances at the usual hour and once more presenting a street parade in the forenoon. The equipment of the show is all new. It was built at a cost of \$3,500,000. The program will be given by 400 performers. Most of them are from Europe and are making their first tour of America.

There is no question as to the superiority of this show. For 55 years it has set a pace that no other circus has been able to follow. There is no country on earth where it is not as well known as in America. There is not a city of size in the United States, Canada, Europe or Asia where at some time it has not pitched its 14 acres of tents. Nobility has applauded it. Oriental kings and potentates have admired it. The peasantry has found delight in its appearance. The world has long recognized it as the head of all amusement affairs.

The management has agents in all the large cities of the earth. They are constantly searching for novelties and curios. They keep in touch with the foremost talent of the earth and keep the circus supplied with fresh acts and new sensations. It is the only circus in the world that has its own animal trappers and jungle hunters. By its enterprise in this respect it has been the first to attract scientists by its up-to-date menagerie.

No sooner does a novelty present itself in the audience rooms and arenas of the old world than an agent scours it for exploitation in America. These alert men are always first on the scene. They were unusually fortunate last winter in their selections, as visitors will see when they sit on the grandstands and view the endless stream of talent pouring through the curving doors of the dressing arena. Three sensational exportations are Desperado, a Frenchman, who dives from the dome of the tent and lands on his chest; Charlie the First, a chimpanzee, who is a greater bicyclist and acrobat than any man; and Jupiter, a magnificent Arabian horse, which rides to the top of the arena in a balloon and descends in a shower of fireworks.

The performance is given in three rings, on two stages, on a Roman race track and in the vast dome of the canvas pavilion. The program opens with an elaborate spectacle in which are employed 1,200 men, women and children and hundreds of horses, camels and elephants. The show now travels on a train of five sections, the combined length of which is more than one mile. The main tent is the most remarkable audience room in the world. It has seats for 15,000 people. Various new devices have been introduced for the comfort of patrons. At night 5,000 lamps, incandescent globes, beacons and searchlights change darkness into noonday.

In the menagerie is found the greatest circus attraction ever seen anywhere in the world. It is a baby giraffe, the only one ever born in America. It is just three feet tall. Its mother is 19 feet taller. Baby Bumbino is the youngest's name. It is worth its weight in gold.

Tonight the steamer W. W. will carry out an excursion on a moonlight trip on the river. The W. W. has been lying up in Rock Island all the week, not making its trip north on account of the low stage of water. This evening's excursion is given by the degree team of Camp 28, M. W. A. The boat will leave Rock Island at 8 and Davenport at 8:15. Dancing will be the main diversion of the evening. Refreshments will be served.

### MAN FALLS OFF CAR CROSSING STREAM

**Theodore Johnson on Way to Campbell's Island Picnic, Alights on Dam.**

Theodore Johnson, 4100 Fourteenth avenue, this city, while enroute to the Deere & Co. employees' annual picnic at Campbell's island yesterday, fell off a car as it was crossing to the island from Watertown, alighting on the dam. He did not even get wet. Johnson was standing on the running board of a crowded car. The car was stopped and Johnson picked up. He was impetuous to return to Moline and have a physician attend him, but he refused to do so, claiming he was uninjured. He boarded the car and went on to the picnic.
